Interreg Alpine Space
SMARTVillages

Assess the smartness degree of your village

You can fulfil the test to know the degree of smartness of your village:

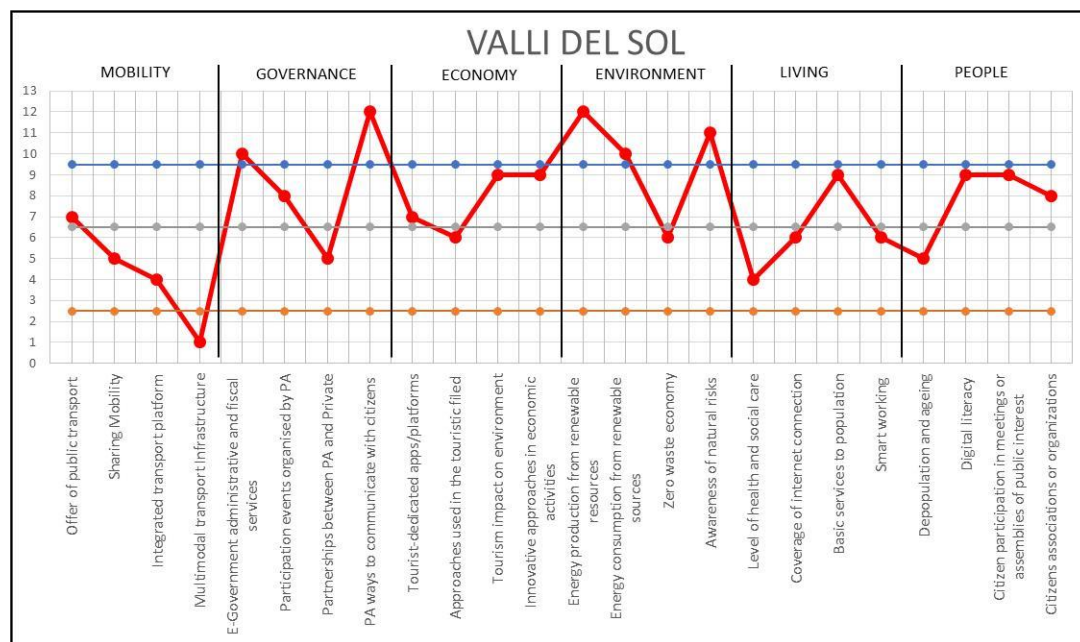

1. Would you say that your TA is subject to depopulation and ageing? ☐ Yes, the TA is only inhabited and 'lived' by elderly people ☐ Yes, young people (under 30) come back occasionally (for holidays and occasional work) ☐ Yes, young people (under 30) study and work away but still live here (e.g., daily commuters) ☐ No, young people (under 30) are staying in the area Comment: 	2. What is the level of digital literacy of the people living in your Test Area? ☐ Low, and educational activities to foster digital literacy are not planned ☐ Low, but educational activities to foster digital literacy are in place or planned ☐ Medium-to-high, but not for all the age groups ☐ High, all people can be defined as digital literates Comment: 	3. Do citizens in your TA participate in meetings or assemblies of public interest? ☐ No, there is not much interest in participating in decision making ☐ Yes, there are some opportunities but only a low percentage of people participate. Indicate an approximate percentage ☐ Yes, there are some opportunities and a medium-to-high percentage of people participate. Indicate an approximate percentage ☐ Yes, there are some opportunities and a very high percentage of people participate. Indicate an approximate percentage	4. Are there active citizens associations and organisations in your TA? ☐ No, or there were but they are not active any more ☐ No, but there are plans for some new associations/organisations to form ☐ Yes, but they are not focused on innovation. Indicate an approximate number ☐ Yes, and they are focused on innovation. Indicate an approximate number Comment:
1. Are there e-government administrative and fiscal services, organised and managed by Public Authorities?	2. Do Public Authorities involve citizens in decision making? (top-down approach to participation)	3. Do Public Authorities facilitate partnerships with private enterprises? ☐ No	4. Do Public Authorities communicate (news, decisions, information) in smart ways to the citizens or visitors?

Qualche risultato:

M	0,227304	22,73043
G	0,12981	12,981
Env.	0,153792	15,37923
Ec.	0,144987	14,49874
L	0,209495	20,94952
P	0,134611	13,46108

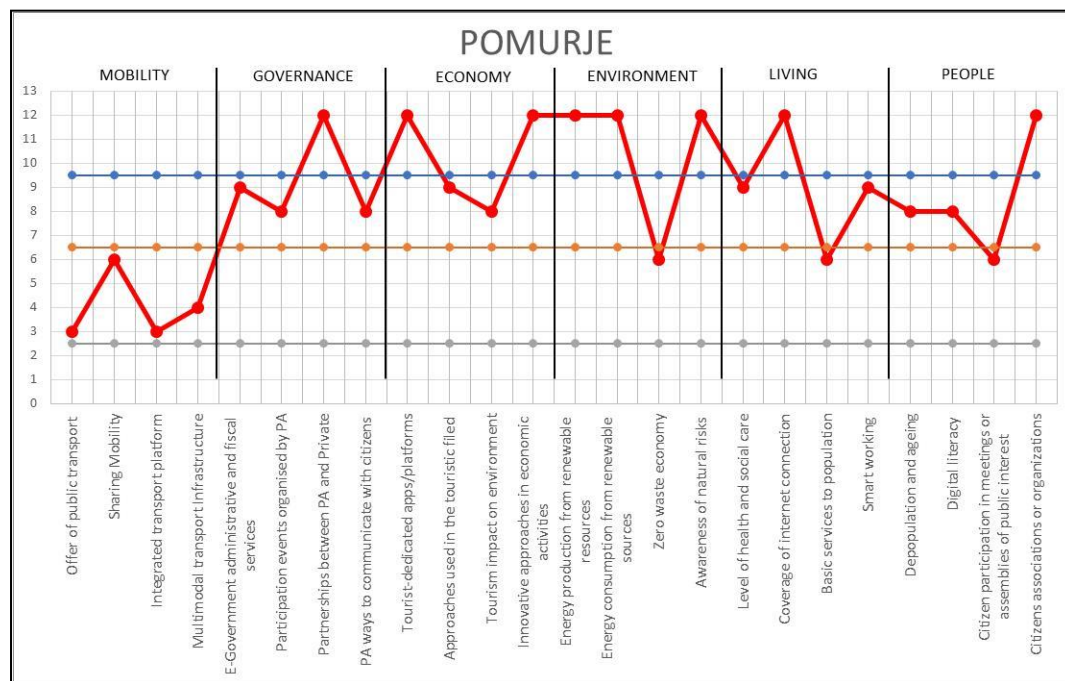

Esperti: Augusto Astengo e Sara Pastorino

Mobilità e Living sono le due dimensioni chiave selezionate da Valli del SOL: la TA si autovaluta come a bassa smartness per la smart mobility e a medio-alta smartness per la qualità di vita.

Qualche risultato:

M	0,069029	6,902867
G	0,113997	11,39975
Env.	0,258609	25,86089
Ec.	0,222474	22,24736
L	0,18285	18,28496
P	0,153042	15,30417

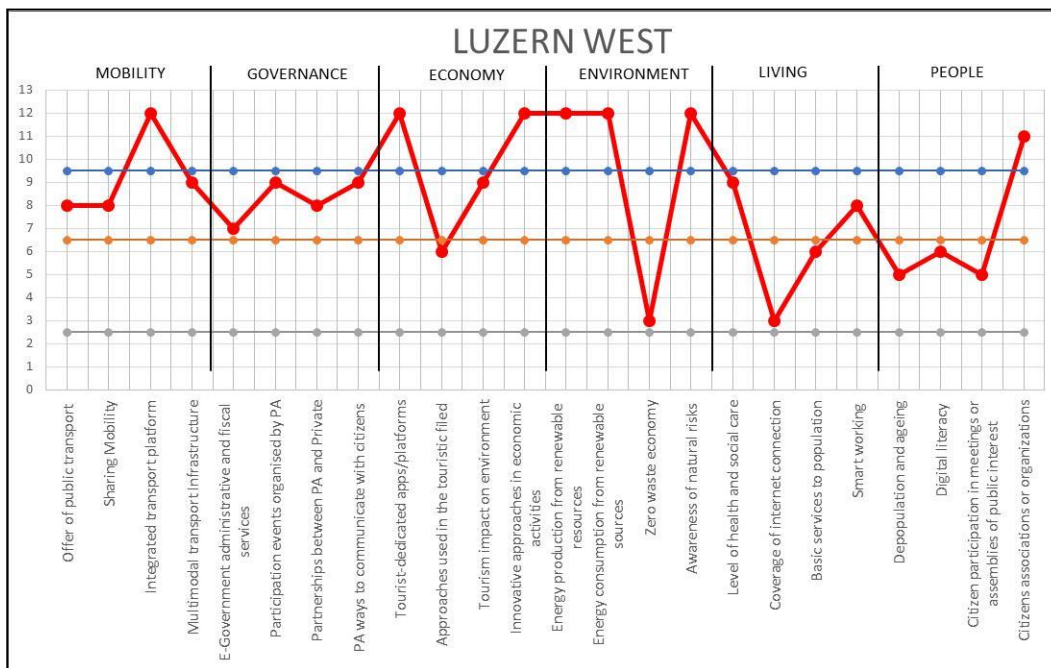

Esperti: Darja Kukovič e Tina Beranič

Pomurje si autovaluta ad alto livello di smartness nelle dimensioni considerate chiave dai nostri esperti (Economia e Ambiente); la TA si autovaluta a bassa smartness per la Mobilità, dimensione che viene in ogni caso ritenuta di scarso interesse, localmente.

Qualche risultato:

M	0,055489	5,548904
G	0,063385	6,338535
Env.	0,14893	14,89299
Ec.	0,177485	17,74852
L	0,245418	24,54176
P	0,309293	30,9293

Esperto: Alexander Siegenthaler

Lucerna Ovest mostra dei risultati negativi nelle due dimensioni che sono ritenute le più importanti: People e Living.

Governance e Mobility hanno invece punteggi molto alti, ma al momento non sono ritenute di particolare importanza.

Gli Smart Villages sono un tema centrale!

European Week on Regions and Cities. Evento 'Smart Villages: superare il divario tra aree urbane e rurali'

Smart Villages come:

- **'Equalisers'**, ossia luoghi che si propongono di offrire opportunità pari a quelle offerte dalle grandi aree urbane
- **'Linkers'**, ossia di luoghi di raccordo tra diversi villaggi per l'aggregazione di servizi
- **'Partners'** ossia di luoghi che supportano le aree urbane nell'erogazione di servizi e nelle attività economiche.

In ogni caso gli smart villages si concepiscono come **'Players'** attivi a tutti gli effetti nel dare forma al proprio futuro, per mantenere le aree rurali e montane attrattive, vivibili e vissute.
